

I'm Matthew Vernon.
A founder, product designer & creative
director based in New York City.

hello@matthewvernon.co

Experience	2020–2026	Co-Founder & Chief Design Officer Foundation Labs, Inc. Remote / New York City • Cofounded the company, and helped raise initial venture funding. • Initially started as a solo designer, working on both Brand and Product. • We built the largest digital art NFT platform (foundation.app), launched in 2021. • Facilitated over \$230 million of sales for our creators. • Generated over \$20 million of revenue. • Used by world class artists like Charli XCX, Aphex Twin, The Hundreds, Jenny Holzer and countless others. • I built out and managed a world class design team of 2 Product Designers, 1 Design Engineer, 1 Creative Director and 1 Brand Designer • As the NFT market consolidated, and shifted strategy and started building Rodeo – a mobile social network for creators. • Rodeo grew to 20k daily active users at it's peak.
	2018–2019	Lead Product Designer Dharma Labs, Inc. San Francisco, CA • Dharma Labs is a YC-funded crypto startup based in San Francisco, aiming to build modern fintech style products on top of crypto rails. • When I joined the company, there was only a technical whitepaper, developer docs and a few command line prototypes. • After my year leading design, we released a beautiful consumer facing brand, and had our app in the App Store. • Dharma allowed anyone around the world to earn up to 8% APY interest on US dollars, through the use of stablecoins and decentralized finance protocols. • We invested heavily in a iOS app, fiat on-ramps so that it could be used by anyone, no crypto knowledge required.
	2016–2019	Freelance Designer Sydney, Australia • Ran my own independent design practice, designing and building brands, website, online stores for startups.
Education	2013–2014	Bachelor of Applied Design, Communication Design Billy Blue College of Design Sydney, Australia
	2012–2013	Diploma of Commercial Arts, Graphic Design CATC Design School Sydney, Australia
Immigration Status	E-3 Visa	• I've lived in the United States for a total of 3 years under the E-3 Visa. • The E-3 visa is a uniquely available to Australians, and can be continually renewed every 2 years. • The only requirements are a Bachelor's Degree, and a job offer from a US company.
